

Product Summary

Essential oils are highly concentrated, potent plant essences derived from the energy of living plants and known for their remarkable effects on physical health and emotional well-being.

Essential oils have a long history of use, and advanced ancient civilisations like the Egyptians, Greeks, Romans, and Chinese all relied on nature's essential oils to increase and maintain the health of the body, mind, and spirit.

This collection now includes directions and instructions in 24 European languages allowing you to share these world leading essential oils and spread the Young Living message of wellness, purpose and abundance.

Young Living's line of 100% pure essential oils and unique essential oil blends are sourced from the world's finest plants and are carefully grown, harvested, distilled, and prepared to maintain plant integrity. This commitment to purity makes Young Living's essential oils the world's premium essential oil line and the Essential 7 collection a must-have in every home and a necessity for everybody.
